轻钢房屋材料解说

LIGHT STEEL HOUSING MATERIAL EXPLANATION

主体：我司轻钢房屋主框架使用钢卷压制成型的轻钢组件，材质内含铝元素，在使用的过程中不易被腐蚀，安装也方便。
主体中空层：巖棉或聚氨酯填缝胶（具体看地理位置使用）、防水透气膜
外墙板：塑木面板、防腐木装饰板、水泥纤维板、铝镁锰板
内墙板：桑拿木板、木饰面板、竹木纤维板
地板：SPC地板、地板胶、复合木地板、地砖

Main body: The main frame of our light steel house is made of light steel components pressed by steel coils. The material contains aluminum elements, which is not easy to be corroded in the process of use and easy to install.
The main hollow layer: contains rock wool or polyurethane sealant (depending on the geographical location), waterproof breathable film
Exterior wall panel: plastic wood panel, anticorrosive wood decorative board, cement fiber board, aluminum magnesium manganese board
Inner wall board: sauna board, wood decoration panel, bamboo wood fiberboard
Floor: spc floor, floor glue, composite wood floor, floor tile

运输方式及安装

MODE OF TRANSPORTATION AND INSTALLATION

两种运输方式

TWO KINDS OF TRANSPORTATION

1. 完全拆卸发货，即把所有钢卷压制成型后的部件，在不组装下发货。这样能节约一点运输空间，但安装的时候花的时间也多。
 2. 模块化发货，即把散件组装成一个个整体的框架，再打包发货，能极大地节约时间，更快地把房屋安装好。2-4 人就能快速安装好，缺点是占用的运输空间会多一点。
1. Complete disassembly delivery, that is, all the steel coil pressed forming parts, shipped without assembly. This saves a little shipping space, but it also takes a lot of time to install.
 2. Modular delivery, that is, assemble the pieces into a whole frame, then package delivery, can greatly save time, faster to install the house. Two to four people can be installed quickly, the disadvantage is that the transportation space will be a little more.
